PALMETTO HALF MARATHON COURSE MAP

The half marathon race course is a mix of flat terrain and rolling hills through The Woodlands and Wildewood neighborhoods in Northeast Columbia. The course will start with a flat 1 mile loop around the Village at Sandhill then down Clemson Road before taking the exit ramp on to Two Notch Road. After running a brief stretch on Two Notch Rd, runners will turn left onto Valhalla Dr. and run through the Woodlands neighborhood for approximately 2.5 miles which is mostly rolling downhill. After running through the Woodlands, runners will cross over Sparkleberry Lane onto Mallet Hill Rd for a flat 1.5 miles. Runners will then loop through Wildewood neighborhood via Wood Duck Rd. and run a loop around Boyd's Pond 2. This is a flat loop until you get to the 7 mile mark. This is where runners will begin climbing away from the pond and back to Mallet Hill Rd. Runners will turn left back onto Mallet Hill Rd. and return to the Village at Sandhill via the same roads they took coming out. The course will finish at the fountain in the center of the Village at Sandhill.

This course is a good mix of hills and flats. The many flat stretches and down hill sections are a great break between the hills. The course should be relatively fast and "runner friendly" for any first time half marathoners but challenging enough for any veteran runners who want a fast course. Come join us for a very unique and fun course!
